

**IN THE CLAIMS:**

Please CANCEL claims 17-18 and AMEND claims 15 and 16 as follows.

1-14. (Cancelled)

15. (Currently Amended) A method for displaying channel information on a ~~digital television display device~~ for receiving ~~digital~~ multichannel television broadcasting, comprising: ~~a major channel and a corresponding plurality of minor channels, comprising:~~

selecting a major channel number on a channel select menu of said display device; and

displaying a major channel number and at least one minor channel number of programs received through said major channel;~~channel select menu on a television screen in response to a demand from a user;~~

wherein said channel select menu includes a scroll bar window having a scroll bar to display moving area split into prescribed areas so as to cover all received channels and includes a channel window for displaying the channel numbers of partial channels corresponding to a position of a scroll bar;

~~determining if said scroll bar moves; and~~

~~if said scroll bar moves, changing channel numbers on said channel window to channel numbers of channels corresponding to a position of said scroll bar.~~

16. (Currently Amended) The method as claimed in claim 15, further comprising:

determining if one of the channel numbers displayed on a said channel window of the channel select menu is selected; and

if one of the channel numbers is selected, selecting a channel of the selected channel number.

17. (Previously Presented) The method as claimed in claim 15, wherein the displaying further comprises displaying the channel numbers corresponding to the minor channels without displaying the channel number corresponding to the major channel.

18. (Previously Presented) The method as claimed in claim 15, wherein the displaying further comprises displaying the channel numbers corresponding to the minor channels and displaying the channel number corresponding to the major channel.
